

The Foundation for Advanced Continuing Education (F.A.C.E.), a non-profit educational organization that was founded in 1974 has successfully taught the most current techniques and advanced materials for over forty-two years.

The mission of the Advanced Restorative Dentistry (ARD) program at F.A.C.E. has always been to offer dentists the opportunity to become **true masters of their craft**. It is an in depth comprehensive program that arms the practitioner with the knowledge and skills necessary to deliver the highest quality dentistry available anywhere in the world. This program can only be offered to small groups of dentists since it requires "hands on" training that most often involves one on one teaching methods. Members of the ARD continuing education program are part of one of the longest standing active study groups in the world. Most graduates of F.A.C.E. find the advanced program to be a life changing experience that forever improves the way they practice dentistry.

### Occlusion Session

The Occlusion session will cover the importance of occlusion in all phases of dentistry with special emphasis on:

1. Treatments that ensure success in all aspects of restorative dentistry, ranging from single tooth restoration to full mouth reconstruction.
2. Diagnosis and treatment planning for both simple and complex restorative cases.
3. Evaluation of clinical cases to explore reasons for long term success or failure.
4. The rationale and methodology of splint treatment for comprehensive restorative and T.M.D. cases.

### Cosmetic Session

The cosmetic session of the seminar will provide detailed insight into the total spectrum of adhesive dental treatment with an emphasis on:

1. Adhesive material update.
2. Why you cannot practice without Glass Ionomers.
3. Eliminate sensitivity without compromising long-term results.
4. Adhesive techniques for the indirect restoration

## Thomas F. Basta, DDS

Dr. Thomas F. Basta received his DDS degree from the University of California (UCSF). He was formerly on the staff of the University of Pacific as a special consultant in crown and bridge prosthesis. He has lectured extensively throughout the U.S.A., Canada, Mexico, Europe, South America and Asia. In 1975, he cofounded the Foundation for Advanced Continuing Education (FACE), a non-profit teaching institute dedicated to teaching the highest standard of quality care. He has designed and manufactured the Basta Gnathograph, the Basta I fully adjustable, Basta II semi-adjustable articulators, a Condylar Repositioning Indicator, Mounting Jig and Face Smileguide.

The International Academy of Gnathology has recently honored Dr. Basta with the prestigious Beverley Mc Collum award for outstanding contributions and professional achievements in the advancement of dentistry. Dr. Basta shares this honor with other notable clinicians and educators including Dr.'s Charles E Stuart, Peter K. Thomas, Harvey Stallard and Everitt Payne.

## Jeff Brucia, DDS

Dr. Brucia is a graduate of the University of the Pacific School of Dentistry where he is currently an Assistant Professor of Dental Practice. He is practicing Esthetic and Restorative dentistry full time in San Francisco, California. He is the 2011 recipient of the Gordon J. Christensen Recognition Lecturer Award. In 2010, Dr. Brucia was elected a fellow in the American Academy of Esthetic Dentistry. He has also been selected by Dentistry Today as one of the top clinicians in dental continuing education for the last several years.

Other distinguished members of the FACE faculty include:

- Daniel Cheng, D.D.S.**
- Bill Hadlock, D.D.S.**
- Glenn Kitasoe, D.D.S.**
- Yo Mukai, D.D.S.**
- Curtis Rowe, D.D.S.**
- Andrew Girardot, D.D.S.**
- David Hatcher, D.D.S., M.S.C., M.R.C.D.J**
- Kirk Pasquinelli, D.D.S.**

Refund/cancellation policy-The registration fee is refundable up to **21 days** prior to the seminar. Please contact us if we can be of further assistance, 408 252-4076

## What other dentists are saying about F.A.C.E.

*"The skills I have learned at F.A.C.E. have taught me to practice dentistry without compromise. I have found passion in my profession!!!"*

-Lilia Martinez, D.D.S.

*"Dr. Jeff Brucia has a saying at F.A.C.E. - "What you don't know, you don't know" says it all. Like many dentists I was in search of perfect dentistry, I looked to known experts in the United States for answers but did not get all my answers. Dr. Tom Basta and Dr. Jeff Brucia gave me those answers and systems to handle with confidence anything that walks in my dental office. Coming to F.A.C.E. was one of the best decisions I ever made!"*

-Glenn Kitasoe, D.D.S.

*"After 25 years in practice, this is the most comprehensive course I've ever taken. Dr. Basta and Dr. Brucia are the most talented clinicians I have ever seen. Unquestionably the finest dentistry I have ever experienced. Now I can offer my patients the best our profession has to offer."*

-John Petrini D.D.S.

*"I look forward to going to my office every day. I owe much of this fulfillment in dentistry to the FACE seminars. I believe that if you want to be the best, always delivering predictable, long lasting restorations you must learn from the best. FACE is the place to go."*

-David Han D.D.S.

## One-on-One Consultation

**Includes**

Bring your difficult treatment planning cases\* and during the course of this powerful F.A.C.E. seminar our senior clinicians will provide a unique opportunity to help problem-solve your challenging cases, one-on-one, giving detailed recommendations and demonstrations on the most effective treatment planning, giving you decades of valuable experience for you and your patient.

\* Bring your actual mounted case study models
