# F.A.C.E.

Foundation for Advanced Continuing Education

June 13-17, 2018  
OR  
August 22-26, 2018

Presented by Thomas F. Basta DDS and Jeff Brucia DDS

A Comprehensive Course on  
Dental Materials  
and  
Advanced Restorative  
Techniques

The Foundation for Advanced Continuing Education (F.A.C.E.)  
is designed as an Approved PACE Program Provider  
by the Academy of General Dentistry.

Clinicians who have taken the two day introductory course qualify to participate in an exciting five day course that may forever change the way you practice dentistry. The course will include one day of Adhesive and Cosmetic dentistry, a comprehensive hands on experience to make the everyday cosmetic dental procedures completely predictable, easy and fun, and four days of instruction with hands-on training in the use of earbow mountings, accurate CR registrations and the FACE ORTHOPEDIC STABILIZING APPLIANCE (F.O.S.A.). In addition to its use as an invaluable diagnostic tool, F.O.S.A. therapy produces consistent, predictable results in the treatment of TMD, worn dentitions, pressure and temperature sensitive teeth, pre-restorative condylar stabilization and eliminates the chip-

ping and fracture of aesthetic porcelain restorations.

Most dentists who have taken the F.O.S.A. course have experienced a dramatic increase in patient referrals, personal satisfaction and profitability.

*"Dr. Jeff Brucia has a saying at F.A.C.E.-"What you don't know, you don't know" says it all. Like many dentists, I was in search of perfect dentistry. I looked to known experts in the United States for answers but did not get them. Dr. Tom Basta and Dr. Jeff Brucia at F.A.C.E. gave me those answers and systems to handle with confidence any dental issue that walks in my office. Coming to F.A.C.E. was one of the best decisions I ever made!"*  
 Glenn Kitaoe, D.D.S.  
 Menlo Park, CA

This is a limited attendance course to insure that each participant will receive personal hands on instruction. FACE is a non-profit institute dedicated to teaching the highest standards in dentistry. All of the directors, lecturers, and instructors donate their time and receive no financial remuneration for their participation in this course. FACE has no financial arrangement with any of the companies whose products are used or recommended in any of its courses.

*"The skills I have learned at FACE have taught me to practice dentistry without compromise. I have found passion in my profession!!!"*  
 Lilia Martinez  
 Los Angeles, Ca.

Tuition \$5,995  
 (Payable by check or credit card)
